PROFILE

I am a passionate MERN Stack Developer with hands-on experience in building responsive and scalable web applications. I have strong skills in frontend development using HTML, CSS, JavaScript, React.js, and Next.js, along with backend development using Node.js, Express.js, and MongoDB. I specialize in developing clean, user-friendly, and performance-optimized applications with proper API integration and authentication systems. I am continuously improving my skills through real-world projects and modern development practices.

SKILLS

EXPERIENCE

- Frontend Development
Saylani Mass It Training
January 2024 - October 2024
"I spent 9 transformative months at Saylani Mass IT Training, where I nurtured my passion for Frontend Development and learned technologies like HTML, CSS, JavaScript, Firebase, GitHub, Hosting, React.js, and Next.js."
- Backend Development
Saylani Mass It Training
November 2024 - Feb 2025
"I am currently pursuing Backend Development at Saylani Mass IT Training, learning Node.js, Express.js, and MongoDB to build efficient and scalable server-side applications."
